Knowledgeable:

MongoDB
Jasmine
Mocha
Chai

E D U C A T I O N

Grace Hopper Program

Software Engineering
March 2020-July 2020

Kean University

Bachelor of Arts
Elementary Education -
with a concentration in
English
2012-2016

P R O J E C T S

Never Bored | Full-Stack Developer | never-bored-games.herokuapp.com

An ecommerce website for selling board games

- Implemented an all products page allowing users to see and select products
- Created a single page view where the user can add a specific product/quantity to their cart
- API authentication using JSON web tokens
- Technologies: React, Redux, Node.js, Express, Sequelize and Postgres

DevProz | Full-Stack Developer | devproz.herokuapp.com

A digital implementation of the game 'What Do You Meme'

- Integrated web sockets into the client and server side of our application
- Used web sockets in order to create/start a game, update the game and start a new round
- Technologies: React, Redux, Node.js, Express, MongoDB, Mongoose, Socket.io

W O R K E X P E R I E N C E

Volunteer Web Development

2019-Present

Support Group | johnsantoscharitableorganization.org

- Designed and implemented the front-end using HTML, CSS and JavaScript
- Created a responsive and user-friendly site
- Organized client's extensive resources so information and resources could easily be accessed

Timnastics | timnastics.com

- Prepared multiple designs and wireframes for client's approval
- Highlighted key points to draw the user's eye to important information on clinics
- Designed a responsive website using HTML, CSS and JavaScript

Head Coach | DC Gymnastics

2012-2020

- Lead and direct practices for multiple teams
- Develop and track personalized skill development plans for gymnasts of all abilities

Kindergarten Teacher/Substitute | Piscataway/Montgomery

2016-2017

- Effectively managed a classroom of 25 students
- Developed and executed lesson plans
